Finest Local Produce

At Hastings Hotels we are passionate about food and believe that eating is one of life's greatest pleasures. We embrace the use of carefully selected local and seasonal quality foods to enable our chefs to prepare and create the most delicious dishes in our kitchens across a wide range of menus.

It is often said that breakfast is the most important meal of the day... and who are we to disagree? Certainly, across all seven of our hotels we find that our breakfasts are the very best way to showcase some of the finest produce that Northern Ireland has to offer. We are proud of the lengths that our chefs and suppliers have gone to in order to track down the food heroes of our local farms, many of whom have been out of bed long before us to ensure the freshest and tastiest start to your day!

The island of Ireland has a proud heritage of farming and fishing, resulting in an abundance of sensational produce and we want to give all our guests a true taste of this in everything we serve at every dining occasion – from our fabulous traditional afternoon teas, to light bites at the bar or a gourmet banquet. When sourcing our food, we look for produce which stands out from the rest – from where it originates, to the way it is produced and for its flavour.
